

PEERLESS - SierTeK Capabilities

- DISA enterprise computing experience
- ENCORE III socio-economic credits
- Highly relevant past performance
- "Exceptional" Enterprise IT CPARs
- Reciprocal opportunity consideration on ENCORE III SB, RS3, GSA OASIS, SBEAS, and NASA Enterprise IT
- Specialized recruiting team and full-time FSO targeting hard-to-find IT support
- DCAA-compliant Contracting, Finance & Accounting, and HR system infrastructure
- ISO 9001:2015 and CMMI Level III processes
- TS Facility and SCIF space
- Agile software development, software

PEERLESS - SierTeK Exclusive Tools

- **P-CASE:** Peerless Cyber-Assured Systems Engineering for tailored, cost-efficient RMF applications
- **P-SEP:** Peerless Systems Engineering Process, our software factory expertise
- **System Integration Lab (SIL):** In-house virtual lab for software DevOps and testing

Expert Capabilities, Relevant Experience, Significant Contracts in All 19 ENCORE Performance Areas

Enterprise IT Policy & Planning	Defense Research Network support, plus 14 active NASA, Air Force, Navy, USSTRATCOM contracts, including \$112M NASA Glenn enterprise IT support to the CIO
Integrated Solutions Management	Integrating 10 Air Force depot maintenance systems and supporting NAVSEA systems, Joint Info Ops Warfare Center, and DoD Joint Network Support
Process, Performance, and Strategic Benchmarking	SMEs supporting Air Force, Navy, and NASA business enterprise and logistics systems and infrastructure
BPR	Support to DoD DEAMS financial system. NASA contracts on which CIO processes are optimized through regimented BPR processes
Requirements Analysis	Supporting multiple DoD maintenance info systems, Business Enterprise Systems, and FMS support information systems
Market Research and Prototyping	Comprehensive qualifications in managing Air Force SBIR/STTR program and in DoD logistics information systems
Information & Knowledge Management	IM/KM support in medical IT, plus 7 KM-related contracts supporting Air Force, Navy, USSTRATCOM, and NASA
Custom Application Development	Air Force depot maintenance system consolidation, and Air Force FMS systems, and DoD supply management information systems
Product Integration	Integrating 10 Air Force legacy systems to achieve integrated Maintenance, Repair, and Overhaul (MRO) system, Air Force DCGS intelligence platform
T&E	10 contracts, exceptional qualifications on business and logistics management information systems
Asset Management	8 contracts, supporting Air Force Materiel Command and NASA CIOs, as well as on our NAVSEA NSWC Crane requirements
Network Support	6 contracts, including research and intelligence community networks and joint networks in support of USSTRATCOM
Cyber Security Assessment, Authorization, and Authorization	Over 14 active contracts supporting defensive, network exploitation, offensive cyber, and enterprise-level RMF for Air Force, Navy, NASA, USSTRATCOM. We perform Air Force F-22 and AF-DCGS cybersecurity. Peerless also applies our P-CASE RMF support tool and methodology.
Info Communications Technology	9 contracts supporting aerospace research within the Air Force Research Lab, including Mobile IT
Computer-Telephony Integration	Supporting DLA telephone and computing requirements at two major call centers
Web Services	Full-range of web application and services support experience in DoD Air Force, Navy, EPA (on COTS applications), and NASA
Operations Support	Extensive software release and installation experience, plus USSTRATCOM network operations and Air Force information system operations support
IT Support Services	18 Air Force, AFRL, DLA, and NASA contracts, including Air Force Intelligence Community and IT support in the DoD meteorological communities
Cloud Professional Services	Air Force depot maintenance system cloud migration, plus legacy information system preparation for cloud migration
