- OASIS SB Pool 3 47QRAD20D3124
- OASIS 8a Pool 3 47QRAD20D8328
- DISA Encore III SB HC102818D0021

ACKNOWLEDGMENTS

Acquisition Program Manager, AFLCMC, Depot Maintenance Applications Consolidation - “SierTeK masterfully maintained ten production systems, providing proactive support with exemplary technical expertise. ***The Government has benefited greatly from the technical knowledge and expertise of the SierTeK team.*** SierTeK had outstanding accessibility and continuously retained and acquired invaluable personnel in support of the Air Force mission.”

Contracting Officer, US Environmental Protection Agency - “Peerless performed all technical requirements exceptionally. ***Peerless is always willing to go beyond*** what is technically required in the PWS.”

10F Division Manager, Navy Naval Surface Warfare Center - “Peerless has been very responsive in hiring qualified personnel to meet our requirements. Additionally, once hired we have seen no turnover in contractor personnel which is critical to our ability to meet schedules dictated by higher echelon commands. ***Peerless hires quality employees that quickly integrate themselves into their Government teams.***”

Contracting Officer, NASA Glenn Research Center – “The PACE IV (Peerless contract) contract has ***consistently provided an excellent level of technical performance.*** This is evidenced by consistently high performance in all evaluation ratings.”

F-22 System Program Director, AFLCMC/WWU - “Peerless developed a venue to resolve critical F-22 test issues. They organized the first-ever meeting of five different test organizations to work critical issues with result being a leadership-approved, robust test schedule. Facilitated the receipt and award of proposals in record time. ***This effort set the standard for efficient contract award execution.***”

AFSAC Mission Systems Branch Chief – “***SierTeK has done a stellar job in supporting (CMCS),*** an Air Force Foreign Military Sales Financial System. The successful execution of day-to-day maintenance activities has been smooth.”
